

# **SPECTRUM ENVIRONMENTAL POLICY STATEMENT**

## **Statement of Policy**

Spectrum Environmental Solutions Limited acknowledges that it has an obligation to consider the impact of its activities on the environment.

To meet this obligation in the UK, Spectrum intends to operate an Environmental Management System (EMS) that is appropriate to the nature, scale and environmental impact of all its activities and services.

Spectrum have a commitment to complying with all relevant environmental legislation and regulations. In particular we aim to continuously improve our environmental performance and prevent pollution arising from our activities.

Furthermore the Company makes the following specific commitments:

- To control and where possible reduce emissions to air;
- To reduce the possibility of uncontrolled releases to water; -To manage waste in a safe and responsible manner;
- To strive to prevent contamination of it's own land and that of others; -To control the use of raw materials and natural resources and where possible reduce consumption;
- To take into account local environmental and community issues and in particular strive to be a good neighbour.

These specific commitments will provide the framework for setting and reviewing environmental objectives and targets. This policy will be communicated to all employees and made available to all stakeholders.

The Environmental Policy has the full support of Senior Management and will be reviewed at appropriate intervals.
